

Parent Connect—Fast Facts

Bermuda Ministry of Education

Parent Connect is a web based home-to-school collaboration system linking parents and schools via the internet.

- Innovative educational technology to share knowledge with parents and increase student success.
- Using a computer, a password and the internet, parents are able to check their children's latest grades and homework assignments 24 hours a day.
- This technology revolutionizes the way parents receive information about their children and gives parents enhanced details about their child's progress.
- On-line grades help the school communicate better with parents and there are no surprises when report cards arrive.
- Initial focus is on high schools and middle school where communication between the teacher and parent becomes challenging.
- Allows parents to spot potential problems and take action early instead of waiting for interim progress reports
- Security feature—Parent Connect is a password protected and read-only program.
