

GIFTED AND TALENTED EDUCATION

Dear Parent/Guardian,

On behalf of the Department of Education's Gifted and Talented Education Programme, we are pleased to inform you that your child has been provided with an account on the Renzulli Online Learning System (www.renzullilearning.com).

This site has been designed by teacher's to accommodate the diverse abilities, interests, and learning styles of each student. The Renzulli Learning System is a breakthrough computer profiler and super search engine that matches how students learn to thousands of enrichment activities. This internet based program is designed to help your child develop his/her full potential.

The Renzulli Learning System employs a 3-step procedure based on the well-known Enrichment Triad Model:

Step 1: Renzulli Profiler—students complete a 30-minute computer based diagnostic assessment, which profiles their academic strengths, interests, learning styles and preferred modes of expression. The Profiler also models for teachers how to differentiate for each child.

Step 2: Renzulli Magellan— contains enrichment activity search engines instantly matched to every student's strengths and interests to a vast variety of relevant learning activities. These include: virtual field trips, creativity training, summer programs, books, projects, and much more.

Step 3: Total Talent Portfolio— for accessing and storing student data. The Portfolio travels with the student from grade to grade and school to school.

Today your child's has activated his/her account . They can enjoy using this site anywhere he/she has internet access (i.e. home, school, hotel room). There's even a parent site which you can visit and review what your child has learned and access printable copies of their learning styles. A one hour parent orientation session organized by your school will follow. If you have any further queries please contact Ms. L. Wainwright, Education Officer, GATE/Enrichment at 278-3334 or lwainwright@gov.bm.

Congratulations and welcome to Renzulli Learning Systems.

"Everyone has a gift, but all don't open it at the same time."
